

### Exercise „Common puzzle”

Participants are divided into pairs. Everyone gets a piece of the puzzle on which he will draw the answers of the person with whom he is in hand. Remember that the elements of people in pairs should match each other. Participants draw the answers to the following questions:

1. What do you do professionally? What is your education?
2. What are your hobbies / interests?
3. What do you like in yourself?
4. What are your dreams?

Next, the participants present the person they were talking to and attach drawings to the big board, so that a puzzle will be created.
